Dr. Savaş Alpay, Director General of the SESRIC, informed the meeting on the background of the OIC-VET Programme and the actions taken so far; and declared that the Programme aims at enhancing cooperation among the OIC Member States in the field of vocational education and training with the view of establishing a common OIC platform for the benefits of the Member States in this area by incorporating their vocational training programmes into the OIC-VET. He also noted that the SESRIC started the necessary communications with the national authorities of the member states to assign their National Focal Points (NFPs) in order to setup the implementation structure of the Programme with a view to initiate the activities necessary for the pilot application under the Transnational Exchange Projects (OIC-TEPs). As a consequence of these communications, 20 Member States have already

nominated their National Focal Points.

Dr. Savaş Alpay continued to stress the possible impact of the Programme on the economic well-being and human development of the Member States and urged the concerned OIC institutions; mainly IDB, IUT, ICCI and ICYF-DC as the members of the Monitoring and Advisory Committee (MAC) of the OIC-VET Programme to render a strong impetus to the Programme by sharing their technical knowledge and expertise with the Member States in a best possible manner. He also mentioned his sincere hope that with the valuable contributions of the concerned OIC institutions, the Programme will achieve tangible results and bring a great success for the Member States in the areas of socio-economic development and cooperation.

Mr. Mehmet Fatih Serenli, Director of Training and Technical Cooperation Department at the SESRIC, has informed the meeting about the preparations for the First Meeting of the Monitoring and Advisory Committee (MAC) scheduled to be held on 13 May 2009 in Izmir, Republic of Turkey on the sideline of the 25<sup>th</sup> Meeting of the Follow-up Committee of the COMCEC. #### ***4<sup>th</sup> Coordination Meeting for Implementation of the OIC TYPOA***

The 4<sup>th</sup> Coordination Meeting of the OIC subsidiary organs, specialised and affiliated institutions on the implementation of the OIC Ten-Year Programme of Action (TYPOA) was held in Jeddah, Kingdom of Saudi Arabia, on 7 April 2009. The Meeting was attended by the OIC General Secretariat, specialised and affiliated institutions. The OIC Standing Committee for Economic and Commercial Cooperation (COMCEC), OIC Committee for Information and Cultural Affairs (COMIAC), OIC Standing Committee for Science and Technology (COMSTECH), Uganda and Syria also attended the

Meeting. The Meeting considered, as its agenda item, the documents related to the implementation of the OIC-Ten Year Programme of Action, and preparations for the celebration of the 40<sup>th</sup> anniversary of the OIC.

In his opening statement, H.E. Prof. Dr. Ekmeleddin İhsanoğlu, the Secretary General, underlined the importance of the TYPOA and called for increased action and coordination among OIC institutions to work more actively and coordinate their efforts with a view to ensure effective and timely implementation

of the programme. His Excellency also pointed the importance of the meeting with OIC institutions on the implementation of the provisions of the Ten-Year Programme of Action as it provides with an opportunity to take stock of the progress made in all areas of concern to these institutions, which helps coordinate and evaluate the outcomes.

During their meeting in March 2006, March 2007 and May 2008, the OIC subsidiary organs, specialised and affiliated institutions reviewed the provisions of the TYPOA and suggested the course of action to be adopted by the individual institutions in their respective areas for implementing the TYPOA. The first working group underlined the need to implement the decision of the OIC Summit, namely to contribute 0.02% of each Member States' GNP to an established Fund for the promotion of Science and Technology and to encourage Member States to accept the IDB proposal that 10% of assistance to Member States be earmarked for science and technology. Also, on other substantive issues, the vital importance of the issues and projects in the field of Social and Cultural Affairs under the TYPOA was underscored.

The second working group reiterated that increasing intra-OIC trade will be a challenge due to the current World Financial Crisis. In this regard, it proposed that Member States expedite the signing and ratifying of the OIC agreements in particular the PRETAS;

increase the involvement of the private sector; give more priority to infrastructure development and establish an Arbitration Mechanism to facilitate trade. ### *10<sup>th</sup> Meeting of the OIC Standardisation Experts Group (SEG)*

The 24<sup>th</sup> Session of COMCEC entrusted the 10<sup>th</sup> Meeting of OIC Standardisation Experts Group (SEG) with the task of “Developing Halal Food Standard and Procedures”. Within this framework, the 10<sup>th</sup> Meeting of OIC Standardisation Experts Group on “Studying and Developing Halal Food Standards” was convened on 28 – 30 April 2009 in Ankara, Turkey. The Meeting was organised and hosted by the Turkish Standards Institution (TSI). It was attended by the representatives of 30 OIC Member States. Furthermore, the representative of Bosnia and Herzegovina attended the meeting as observer. The representatives of the COMCEC Coordination Office, ICCI, ICDT and SESRIC also attended the Meeting. The SESRIC was represented at the said Meeting by Mr. Murat İlkin, Researcher.

The objective of the Meeting was to discuss the OIC Halal Food Standards and the documents on the organisations involved in Halal certification and accreditation.

The Meeting was inaugurated by Mr. Tahir Büyükhelvacıgil, President of the TSI. The opening speech was delivered by Mr. Yavuz Mollasalıhoğlu, Director General of Standardisation for Foreign Trade of the Under Secretariat for Foreign Trade after being elected as the chairman of the Meeting. It was followed by the message of H.E. Prof. Ekmeleddin İhsanoğlu, Secretary General of the OIC, delivered by the representative of the OIC General Secretariat.

Following the opening session of the Meeting, the participants exchanged views on the OIC Halal Food Standards on which modifications were made based on the consensus on them. The representatives of the Turkish delegation emphasised that international standards should be recognised in food safety

measures. However, a consensus was not reached on some standards as they remained questionable on whether they are in compliance with the Islamic rules or not.

There are some disagreements between the participants on the distinction between Halal and Forbidden (Non-Halal) food products, listing of Halal feedings for animals, Halal animals mechanical slaughtering and compliance of the types of instruments used for slaughtering such as knives made by stainless steel with Shariah rules. However, there was strong inclination to send the final draft of the OIC Halal Food Standards to the International Islamic Fiqh Academy (IIFA) for clarification of the controversial standards in terms of their compliance with Islamic or Shariah rules. While the need for such approach was acknowledged by the participants, it was also indicated that it could take the IIFA a long period of time to resolve the issues that needed to be addressed by them. As a result, it was agreed that a committee consisting of ICCI, Indonesia, Jordan, Kyrgyz Republic, Malaysia, Pakistan, Turkey and United Arab Emirates could take the OIC Halal Food standards to the IIFA upon review of the final project document about OIC Halal Food Standardisation by all participants and follow up on the areas of disagreement.

At the closing Session, it was decided that the OIC Standardisation Experts Group convene again in July 2009 in Antalya, Turkey, to discuss the documents on the organisations involved in Halal certification and accreditation as the said meeting could only focus on OIC Halal Food Standards. Also, the participants expressed their thanks to the TSI of the Republic of Turkey for the excellent arrangements it carried out for the meeting and the warm hospitality it overwhelmed the participants with.
