- Coronavirus Cases : 35195
- Deaths : 533
- Recovered : 25385

- Active case : 9392
- Case fatality rate : 1,49 %
- Recovery rate : 70,2 %

Status of Covid – 19 in Morocco

Evolution of daily new cases (09/08/2020)

OSH - Protection measures by MOH

- Since January, the OSH department is consulted by National Center for Public Health Emergency Operations during Covid-19 pandemic
- A series of measures intended for the protection of health professionals have been taken.
- Procedures to be followed in the workplace in order to prevent the spread of the virus and thus protect workers from Covid-19.

Workers Health Service activities for Health Workers under covid-19

Protection measures for HW - MOH

- The Ministry of Health held to inform all HW about :
 - the pandemic
 - its evolution
 - the risks related to exposure to the virus
 - the necessary protective equipment
- Many sessions was organized in a regional level for HW in Covid circuits
- Acquisition and distribution of PPE to all HW especially for those assigned to Covid circuits
- Several communication supports (capsules, pptx presentations, posters, etc.) have been developed to ensure this action.

Protection measures for HW - MOH

- Health and safety measures relating to Covid-19 risk prevention in the administrative structures of the MOH

COVID-19 : Mesures de prévention en milieu de travail

La présente note*, qui comporte les principales mesures de prévention du Covid-19, a pour but de réduire la propagation du virus SARS-CoV-2 sur les lieux de travail et protéger ainsi la santé des travailleurs et éviter la contamination des clients et des sous-traitants.

L'employeur est tenu de mettre en œuvre tous les moyens nécessaires afin de préserver la santé et la sécurité de travailleurs sur les lieux de travail.

Ce qu'il faut savoir

Prevention in the workplace

Participation in overseeing the implementation of preventive measures in industrial units

Developed checklist model, missions, technical advice to Industrial sectors, etc.

Fiche de contrôle de la mise en place des mesures de protection et de lutte contre l'exposition au Covid-19 des unités industrielles

Nom de l'établissement :

Nom du Gérant/Directeur :

Adresse :

Secteur d'activité :

Effectif du personnel :

Nature du contrôle : - 1^{ère} visite d'investigation

- Visite de contrôle

- Visite pour autorisation de réouverture

- Autre à préciser :

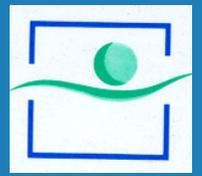

Date de la visite :

Guide LIGNES DIRECTRICES POUR LA GESTION DU RISQUE DE PROPAGATION DU COVID-19 DANS LES LIEUX DE TRAVAIL

Lignes directrices pour la gestion du risque de propagation de la pandémie du Covid-19 dans les lieux de travail du secteur de la construction

Prevention in the workplace

Participation in the organization and animation of the activities relating to the celebration of World Day for Safety and Health at Work

Prevention in the workplace

Participation in Communication and Awareness Activities on the risks associated with Covid-19 and Protective measures at work (official media and social networks)

Lessons learnt during Covid – 19

- the place of the MOH to guide occupational health interventions in emergency situations
- The Need to establish a structured prevention program for health professionals
- The importance of integrating Occupational Health into primary health care to reach all working populations
- Need for more coordination and collaboration with the all stakeholders in OSH including the concerned ministries
