

Fifth Session of OIC Statistical Commission

12-14 May 2015, Ankara–Turkey

CODE OF PRACTICE AND PEER REVIEWS: TURKISH EXPERIENCE

Dr. Gürdal GEDİK

Head of EU Coordination and International
Cooperation Group

International Relations Department
TurkStat

OFFICIAL STATISTICS

- **Statistical data with high quality**
 - significant for democratic countries.
- **Well accepted standards and principles**
 - in place to ensure the quality of official statistics.
- **Monitoring activities of these principles**
 - to evaluate the compliance of the NSS
- **Economic crises**
 - the importance of high quality and independent official statistics.

WHAT IS PEER REVIEW?

“KIND OF ASSESSMENT PROCEDURE OF IMPLEMENTATION OF THE CODES”

- Taking a picture of current situation of the statistical system and compliance status to the Codes,
- Opportunity to see the strengths and weaknesses of the statistical system,
- Recommendations or improvement actions with a timetable for all principles.

BASIS OF ASSESSMENTS

Basis of assessments of National Statistical Systems are:

- *European Statistics Code of Practice (CoP) → Peer Reviews*
- *CoP + United Nations Fundamental Principles of Official Statistics → Global Assessments*

BASIS OF ASSESSMENTS

Code of Practice

- Adoption by European Commission as a “Recommendation” in 2005.
 - Binding in 2009 after being incorporated Regulation (EC) No 223/2009.
 - Revision in 2011 (EU financial crisis) and issues especially related to the principles of
 - ✓ *Professional Independence*
 - ✓ *Quality Commitment*
- has been further enhanced.

BASIS OF ASSESSMENTS

Code of Practice

In the revised Code of Practice;

- ✓ 3 headings,
- ✓ 15 principles,
- ✓ 82 indicators.

PRINCIPLES OF CODE OF PRACTICE

| INSTITUTIONAL ENVIRONMENT | STATISTICAL PROCESSES | STATISTICAL OUTPUTS |
